

The CORTEX Centre Service Advantage

The CORTEX Centre for Advanced Assessment aims to advance science-based psychological, neuropsychological, vocational, and multidisciplinary assessment practices. We provide expert assessments and consulting for medicolegal, fitness for duty, employment, executive leadership, educational, personal, and career growth purposes.

Through our science-based psychological assessments and consulting, we help business executives, leaders, entrepreneurs, and other high achievers grow personally and professionally, advance in careers, overcome challenges, and enhance their competitive edge, productivity, and business outcomes.

As expert psychologists and occupational consultants, we also provide scientifically-informed research, consultations, policy, practice, and program advice, and training for executives, leaders, and entrepreneurs. We utilize psychology, neuropsychology, occupational health, medicine, labour relations, and law to develop solutions to challenges faced by executives, business leaders, and senior managers.

The CORTEX Centre for Advanced Assessment is an Affiliated Company of The University of British Columbia. For more information please visit www.cortexcentre.com

CENTRE FOR ADVANCED ASSESSMENT

**BUSINESS EXECUTIVES &
ENTREPRENEURS**

Advanced Assessments

High-achieving, gifted, or talented individuals include executives, leaders, entrepreneurs, and professionals. They require an advanced assessment to determine their vocational strengths and weaknesses, promote personal and career growth and overcome challenges. At CORTEX, we identify the abilities, aptitudes, personality characteristics, and motivations pertinent to success or failure for our clients.

Career & Leadership Disruption

High achievers thrive in very demanding and competitive domains. When disrupted by personal, life, and health issues, they may lose a competitive edge. While striving to overcome challenges, achievers may believe it necessary to conceal or minimize their struggles so they do not fall behind in their work and career. However, even small personal or health issues can have a major impact on career or business losses.

CORTEX is dedicated to assisting achievers and business executives who have had their lives and careers disrupted, slowed, or otherwise challenged by unexpected events such as injury, trauma, accident, major life stressors, or serious illness. Our advanced assessments take into account specific career and job demands, as well as personal strengths, resources, and difficulties.

A specialized psychological and neuropsychological assessment provides diagnosis and recommendations for how an achiever, disrupted by accident, injury, trauma, illness, or other circumstances, may be able to move forward again with their lives and careers. If difficulties are associated with litigation, we can provide medicolegal assessments for the courts.

Career Advancement & Personal Growth

Are you unsure of whether you are on the best career track to maximize and achieve your potential? CORTEX offers custom-designed assessments that can help you grow and advance your career. By equipping you with a toolbox of important personal information and expert guidance, you can overcome challenges and enhance your personal life and career satisfaction, as well as productivity and financial outcomes.

Leadership & Executive Development

Have you ever wondered how to maximize your leadership, executive, and entrepreneurial performances to optimize your competitive edge in a fast-paced business environment? CORTEX assessments reveal much more than any self-help book, online advice, or workshop. Specialized for the individual, our approach is based on the latest psychology research. Our experts will help you translate the knowledge you gain from our assessments into effective business leadership and make you the best leader, executive, and entrepreneur you can be.

Advanced Assessments & Training

Educational Achievement

Have you wondered how you could maximize future career success by selecting the best educational path?

We can help advance academic achievement and enhance a competitive edge at school and in your career. With knowledge of your strengths and challenges, you can pursue school decisions that maximize potential for top performance in your chosen career.

Coaching, Consulting & Training

Executive coaching, consulting, seminars and workshops are available on communication, team building, innovation, conflict resolution, leadership development, and other topics.
